Planning Analysis Sheet

Website goal

> To create website based on the sport sailing and white sails racing. I want to
> design the site around encouraging people to have a go at sailing by providing
> different ways and opportunities to do so on the site.

List the working title of each page on your site.

Home

> This will have some info about the site. I also want to add a weather and tide
> widget to this page as this is what is usually looked at first on a sailing site.
> There will also be a video of a race event. Gride layout with 3 columns and 3 rows
> but may add more rows if needed. There should also be a 'mailto' link in the
> welcome note for more info.

Join a Crew

There will be a motivational message here to hook potential crew. There will also be a form that interested parties can fill out to be matched with a suitable crew.

Courses

This page will have a table with some sailing courses. The last column should have external links for more information. The links also should use transforms.

Upcoming Events

The page has another table with upcoming sailing events and races.

Gallery

The site has a Gallery page using a grid display. Images transform scale when pointer hovers over.

List of sources

Images

Three images are from Kling AI
https://klingai.com/

All other images are my own.

Video

The video used is from WIORA (West of Ireland Offshore Racing Association) 2019 and can be found on YouTube: https://www.youtube.com/watch?v=IkElwdcv3yc

Widgets

The weather widget used is from weatherwidget.org: https://weatherwidget.org
The tide widget used is from Tide Times: https://www.tidetimes.org.uk

Logo

The logo was created in PowerPoint.

## SEO Features

I used meta-keywords and sitemap.xml

[Link to view the image](#)

Accessibility

To check the accessability of the site I used a combination of Lighthouse and Silktide.

Site Features

- Responsive at max-width: 1024px and max-width: 768px.
- Works in browsers Chrome, Edge and Firefox.
- The colour palette used for the visual design was in keeping with the background image sunset.
- The Navigation bar is consistent across all pages.
- The Banner is also consistent across all pages.
- Site has a Home Page and four content pages.
- Meta Tags used as outlined above.
- The site has 2 table pages.
- Home page has an email hyper link.
- External links included in the last column of the table in Courses page.
- YouTube video embedded on home page.
- CSS image Gallery page with hover-over transitions.
- CSS Transition also added to hyperlinks and nav buttons.
